The Rocket™ utilises conveyor technology to propel up to three riders, uphill, where they experience steep drops and high speed uphill sections in an exhilarating roller coaster style attraction.

The Rocket™ is an exciting signature attraction that combines open and enclosed tubes and can be configured to fit almost any footprint inside or out. Custom theming and colour options are available and enable the Rocket™ to blend in or stand out from the rest of the park.

Ride management systems, tube conveyors and custom raft theming options are available.
